Subject: Aquifer exemption checklist

Hi Steve/Rob: as we discussed, attached is the aquifer exemption checklist put together by EPA. I am also attaching a one-page list of the regulatory criteria for aquifer exemptions.

I know you had indicated the possibility of sending a couple of “draft” aquifer exemption packages for us to review. As we noted, that would be a helpful exercise in scoping out the format/documentation for any potential aquifer exemption submittals. A completed checklist would likely be a component of such documentation.

Let me know if you have any questions about the checklist.

Thanks,
David
